Comments on Celebrity Tour & Cruise in Alaska; Denali National Park and Inside Passage

What a pleasant surprise to get to our Stateroom and find a beautiful bouquet. It lasted all week on the cruise to Alaska and I really didn't want to leave it behind. We had a great time with very little hitches. Thanks again for all you did to make our trip so nice and especially for the flowers.

This was our 6th trip with you. We've learned something valuable on each tour. The trips have given us a well-rounded, in depth look at agriculture in each country visited. Thank you Janet for yet' another wonderful trip!

Janet, you outdo yourself on every trip. I have been on six trips and each one has been planned to perfection, truly wonderful experiences. Hope we can go on more trips with you.

This is my first trip with Janet's Ag Tours and I thoroughly enjoyed it. The group was very friendly and welcoming. It was very well organized and everything seemed to work out on schedule although I never felt rushed. All the places we visited were most interesting and each one seemed to have something unique.

Your planning skills certainly seem evident. A great job and Thank You!

Janet – You know what a birdwatcher/nature lover I am. Over the years we've caught the snow geese in Quebec Province, both spring and fall. We've always felt thrilled to see 1000 geese, But to be in the right place at the right time, this trip – It was spellbinding. Great planning on your part...We've been on 4 trips, all trips interesting and very well organized. Fellow travelers great fun and the "repeat offenders" always a pleasure to see. Your planning and the variety of places/operations/processes we are exposed to are excellent. I appreciate your definite statements of exact times to meet and be on the bus, etc.

This is my second trip with Janet. Gaining access to such a variety of successful ag related enterprises would greatly increase anyone's knowledge and appreciation. The company of well informed and thoughtful people enriches the experience.
